May be able to get

fear that she may
be taken quite ill soon
where I can't be able to see

If you think it will
be accomplished the
object, I can get a
house at Newport
that she will come to
you at, you may if
it will accomplish
it say I will pay the
summers rent on board
as the case may be.
I will not hesitate
to do so for you to
have a place where
she can be quiet &
comfortable with you
as I think she
is entitled to such
a place the last
few weeks or months
of her life. I will
wonder aid in such

a laudable result. I
think I would almost
come on myself to
assist in the matter.

You will know
how to introduce &
present the matter
if it seems feasible
or necessary. I am
sure she must be in
a very excitable state
& I think ought not
to be subject to the
spiritualistic influence.
